Richie Roberts

Richie Roberts
...the detective who brought down one of the biggest drug organizations in America! He was the inspiration for the hit movie American Gangster!

Richie Roberts was instrumental as a detective in the Essex County Prosecutor's Office and its Bureau of Narcotics that led to the investigation, arrest and prosecution of Harlem "drug kingpin" Frank Lucas. His investigation also uncovered police corruption connected to the drug trade. This event was made into a motion picture as depicted above. In 1971, Roberts graduated from Seton Hall University with a JD degree and became an Attorney, specializing in Criminal Defense.
